

WASTE MANAGEMENT

TALIS CONSULTANTS

Who We Are

Talis was established in 2012 and is a versatile consultancy with over 100 staff with a particular focus on client services across the public and private sectors. We are a multidisciplinary team with established capabilities in the areas of:

- ASSETS
- ENVIRONMENT
- ENGINEERING
- SPATIAL
- NOISE
- WASTE

Concepts that Drive Our Management Services

WASTE HIERARCHY

CIRCULAR ECONOMY

Meet the Management Team

Our management team is a dynamic group of individuals with extensive and varied expertise in waste management. Their diverse backgrounds, coupled with their deep industry knowledge, make them exceptionally well-suited to address the complexities and challenges within the waste management sector. Their collective experience and commitment to sustainability and the concept of a circular economy ensures that we effectively navigate and innovate in this critical field, driving forward solutions for a cleaner, more efficient and environmentally responsible future.

RONAN CULLEN
DIRECTOR & NATIONAL WASTE LEAD

Ronan is a co-founder of Talis with 20+ years of consulting experience in waste and resource recovery. He specialises in Waste Strategy, Waste Infrastructure Planning and Delivery and Waste Contracts and Procurement.

ALEX UPITIS
WASTE DISCIPLINE MANAGER (EAST COAST)

Alex delivers sustainable waste management services to local government and commercial waste companies. His strategic direction in waste management provides the foundation for implementing waste infrastructure projects.

JONATHAN BECKETT
WASTE TEAM LEAD (NSW)

Jonathan has 28+ years' experience in State & Local government, private sector, and consulting. He has run his own consultancy firm and delivered several organics, resource recovery, waste strategies & environmental compliance projects.

KARTIK VENKATRAMAN
WASTE TEAM LEAD (QLD)

Kartik has over 20 years' experience in environmental sustainability and waste resource efficiency. He has held senior local government positions and also worked for his own consultancy. Kartik holds a PhD in landfill phytocaps.

COLLEEN PANIZZA
WASTE DISCIPLINE MANAGER (WEST COAST)

Colleen has over 10 years of experience in the environmental and engineering sector including both operational and consultancy roles. Colleen specialises in the delivery of recycling and waste management infrastructure projects, including landfills, waste transfer stations and more.

RACHEL HAYTON
STRATEGY & CIRCULAR ECONOMY TEAM LEAD (WA)

Rachel is a senior consultant with more than 8 years of experience in sustainable waste management and resource recovery. She specialises in circular economy strategies, compositional waste auditing, resource recovery plans, waste education and operational waste management.

CHRIS STANNARD
WASTE INFRASTRUCTURE TEAM LEAD (WA)

Chris is an environmental project manager and chartered waste professional with 18 years' experience in consultancy, specialising in landfill and containment systems design, approval, procurement, construction supervision and quality assurance.

COURTNEY WILLIAMS
WASTE TEAM LEAD (ACT)

Courtney has 12+ years of waste management experience in approvals, strategy development, waste contracts, compliance and waste infrastructure and has developed business cases for several capital works projects.

Strategy and Circular Economy

Talis recognises the importance of planning for the future and advancing waste management systems to resource recovery programs. This can be challenging in the ever evolving waste industry, however Talis specialises in devising tailored solutions for each of our clients to move towards a more circular economy. Waste awareness and education is fundamental to the successful implementation of resource recovery strategies, along with monitoring through waste data gathering and reporting frameworks.

EDUCATION & ENGAGEMENT

Determining the most appropriate and effective method in which to deliver a kerbside FOGO collection and processing service is critical to its success. Based on our experience, Talis understands the critical steps and mechanisms that need to be in place prior to committing to the delivery of such a service as well as the steps and tools needed from service roll-out to ongoing delivery.

Waste Infrastructure

The Talis Team has the skill sets as well as extensive experience in the delivery of all types of recycling and waste management infrastructure facilities from site selection through to acceptance of waste and finally rehabilitation. Importantly, as a team of waste management professionals, Talis knows what is essential to the full lifecycle of waste management infrastructure.
