WASTE MANAGEMENT PLANS

Leveraging our in-depth knowledge of Australian waste regulations and industry best practices, we tailor our plans to meet the unique needs of each client and project. Our expertise spans a wide range of developments, including residential, commercial/retail, mixed-use, aged care facilities, hotels, childcare facilities, educational institutions and more.

Our detailed approach integrates waste reduction, resource recovery and efficient disposal strategies to minimise environmental impact. This ensures compliance, supports environmental sustainability goals, and contributes to the long-term operational efficiency of the development.

A breakdown of Waste Management Plans delivered across multiple developments

- COMMERCIAL DEVELOPMENTS
- MIXED-USE COMPLEXES
- AGED CARE
- EARLY CHILDHOOD EDUCATION CENTRES
- SPECIALIST AGED CARE PROJECTS
- HOTELS
- SHORT-STAY ACCOMMODATION
- EDUCATIONAL INSTITUTIONS

650+ CLIENTS
Across Australia

1,600+ WMP
Delivered

WASTE MANAGEMENT PLANS - WORKFLOW

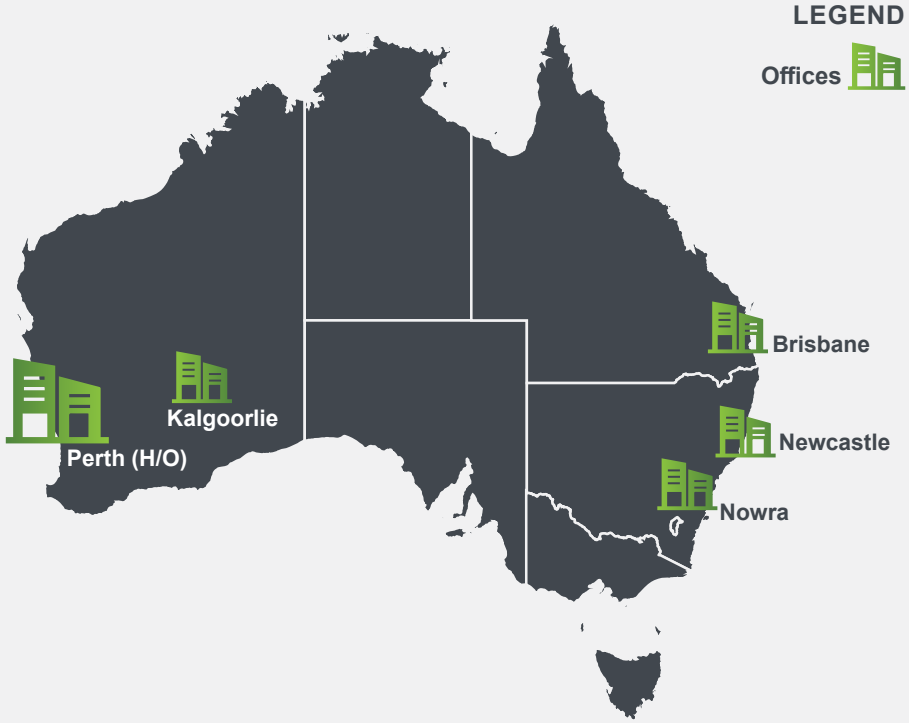

1. **DESKTOP REVIEW** — Analyse architectural plans, documentation, best practice guidelines, state planning policies and local council waste management requirements.
2. **WASTE GENERATION MODELLING** — Forecast waste volumes across the development lifecycle using Talis' database and modelling tools tailored to local government benchmarks.
3. **WASTE STORAGE & COLLECTION STRATEGY** — Determine optimal bin types, quantities, storage layouts, and collection logistics in collaboration with stakeholders, considering vehicle access requirements.
4. **DETAILED REPORTING & DOCUMENTATION** — Prepare WMP/OWMP reports for development approval and sustainability frameworks like Green Star and NatHERS, ensuring compliance & alignment.

- Hodge Collard Preston Architects

CLIENT TESTIMONIAL

"This a fantastic result after almost 2.5 years of navigating a very challenging and constantly changing SDAU/SDRP process.

I would like to take this opportunity and behalf of Gavin, David & Edge team, to thank you for your involvement and assistance in the project reaching this milestone.

This project will be the most iconic mixed-use development that Perth has seen in quite some time and we look forward to moving the development forward into the next phase."
